My dear Mr Falconer

I thank you for your kind letter. It was because my husband was worried over his political troubles which caused his death. That he died such cruel death you know. I regret that you did not meet him. Only those knew him — as the papers said — did one good. He was of the best.

I am on my way Wingfield with my sons. Owen has matriculated Womsich but is not going up to University. A dear friend of Watts has taken the problem of his boys education right in his hands and is sending Owen home for English public schools for a year & then perhaps Winchester for a year. He wants him to have an entire change & so do the Thinks this best. So that I should be here this year at all events. He was to have gone to Uppingham but they thought he was too old. So he is going to Brighton. I shall try & have something of University-life & women. If you have any friends whom you would let me meet ~~to~~ in England in University-circles I would be very

glad to hear better.

I shall be in Collingwood until Saturday. Be sent by Mr Nicholson on the 21st. My father Sir Henry Thurston ~~Chase~~ K.C of Collingwood and always forward letters.

My London address is care Parr's Bank 4 Bartholomew Lane.

Please accept my grateful thanks for your kindly remembrance

Yours sincerely
Lucia Watt
